

Cohesive Automation Solutions

INCREASE THROUGHPUT AND REDUCE COSTS WITH COHESIVE AUTOMATION BY PREGIS

Whether you ship 500 or 50,000 packages a day, the right cohesive packaging system will contain and protect your goods while improving productivity and lowering total package costs.

- Increase throughput and reduce labor constraints by creating 2,100 pkgs.hr.
- Reduce DIM weight and shipping costs with "right-sized" packaging
- Variable size packaging – perfect for packaging products of various lengths
- Security – create tamper-evident, protective packaging
- Enhance customer experience with custom designs and 3-color printing

Labor Constraints

Product Protection

Customer Experience

Cohesive Materials

Sharp Packaging by Pregis offers a wide variety of cohesive materials to fit any packaging requirements.

Product Protection

Weather Proof

Branding/ Customer Experience

Cohesive Single Face Corrugated

Padding, Protection & Rigidity

Ideal when cushioning and rigidity are necessary to protect your products. Available in a variety of flute types and paper grades.

Cohesive Paper and Linerboard

Rigid, Versatile and Recyclable

This versatile material forms an enclosure to provide protection from dust and dirt when cushioning is not necessary. Available in kraft or bleached papers, heavy-duty linerboards and laminated poly-paper.

Cohesive Film

Secure, Durable and Weather Resistant

The perfect material for tear, puncture and water resistance. It's commonly used for shipping security and tamper resistant packaging.

Cohesive Bubble and Foam

Added Flexibility and Cushioning

Cohesive bubble and foam provide superior wrapping and cushioning material used to protect items from damage, vibration and abrasion.

Products worth protecting deserve Pregis

We are a leading manufacturer of **innovative packaging solutions** and **protective products**.

We solve our customer's toughest business challenges with packaging so they can create customers for life. We do this by delivering **creative solutions to packaging challenges** and leveraging a material neutral portfolio.
