

AccuFill®

Speed, precision and versatility for high-volume packing

AccuFill® is the fast, in-line solution for filling boxes in high-volume packaging operations. **AccuFill** is a breakthrough solution designed to optimize the use of void-fill material.

As boxes come down the packaging line, **AccuFill** sensors scan the box, determining box size and the volume of objects inside the package. **AccuFill** computes the exact amount of paper needed to fill the void. The **FillPak®** converter then dispenses the correct quantity of paper.

The result: no guesswork required and minimum packing assistance needed, leading to lower packaging and labor costs while increasing productivity.

Precision Packing

No overpacking.
Paper precisely dispensed to fill voids.

Cost Efficient

Streamline time,
labor and material.
Fast payback.

100% Sustainable

Curbside recyclable,
biodegradable and
entirely paper based.

AccuFill®

- High-speed operation (up to 55" per second) for maximum throughput
- Precise amount of paper automatically dispensed into each box with memory of up to 30 box sizes
- Easy to load, easy to use
- Less packing material used saves money and delivers real sustainability benefits

Package Protection

AccuFill® is based on proven technology. Converted paper dispenses directly at the point of operation, thereby improving packaging process efficiency and speed for lower total cost of ownership and payback in as little as 12 to 18 months.

AccuFill®

AccuFill® Tower and Conveyor

FillPak® Converter

AccuFill®

- Conveyor speed 90 ft./min
- Conveyor width - 24"
- Conveyor length - up to 12 ft.
- Tower width - 40"
- Tower length - 92"

Converter

- Cut method: Automatic
- Weight: 41 lbs.
- Dimensions: 34" x 33" x 17"
- Power: 115 VAC, 60 Hz, 1.7 Amps
- Feed Rate: 55" per second

Paper

	30# Brown Kraft		40# Brown Kraft
Bundle Width:	15"	30"	15"
Bundle Length:	1,660'	1,660'	1,325'
Bundle Weight:	21 lbs.	41.5 lbs.	22 lbs.

Easy Operation

Up to 30 box sizes stored in memory

Easy to load

Foot pedal for manual control

Fast, automated delivery of void-fill material for contactless packing on site

Better Performance

Place box on moving conveyor

Sensor on tower measures box height as it moves through to determine correct amount of paper

Void-fill material precisely dispensed into box with minimal assistance needed for packing

Manual seal or case seal
